

JANUARY 2018 VINTAGE CHART

VINTAGES

This Vintage Chart is provided as a guide (see key at right for a breakdown of the numeric rating system). Vintage charts are always approximations, for various reasons. Firstly, the regions invite the broadest of generalizations. Secondly, the best wine growers can often deliver gems in vintages when others produce less than stellar wines. The maturity advisor (represented in the Vintage Chart as letters; see key at right for their meaning) is also intended only as a guide. Different wine lovers have different expectations: some may want more fruit, some more complexity. As well, bottles from older vintages can be highly variable due to cellaring differences and other circumstances. As always, we urge you to taste for yourself, keep an open mind and trust your own palate.
